### EDUCATIONAL COURSE OF STUDY

## QUIET ON THE SET!

Direct the Lesson Plans\*... and see your students become stars through hands on activities!

Universal Studios Hollywood makes education exciting, and meaningful. Just look at our lesson plans! All have defined objectives and are specifically created to enhance your curriculum. They support California State Standards and are easily adaptable to meet any state's standards.

But most important of all, we put you in the Director's seat. After all, you know your kids best. So we give you the power to select any one or combination of the lesson plans listed on the next page – based on students' needs and interests. We also give you the tools to expand the classroom participation from a day to a full week with **INTO**, **THROUGH**, and **BEYOND**, a system designed to maximize students' Universal Studios experience:

### INTO

In-class work that preps students for their Studio visit.

### THROUGH

Visit to Universal Studios Hollywood.

### BEYOND

Follow-up work back in the classroom to reinforce lessons.

It's a system that works. And you can make it work even better by:

- Selecting one or more lessons to work on
- Completing the prep work prior to visiting Universal Studios Hollywood
- Dividing students into groups\* and have each group present back in the classroom what they learned

\*Please note: Groups are on their own and will not be met or escorted by any Universal Studios Hollywood personnel.

"My group **thoroughly enjoyed** their day at Universal Studios.

It was an **incredible opportunity** to apply what they learned in the classroom to the **real world.**"

Ms. Dana Binder – Eighth Grade Teacher  
Saint Dominic Savio School, Bellflower, CA
